Article description

- 12 or 16 outer square edge suitable for sockets nominal size 12.5 (1/2")
- 2 inner square adaptors for ratchets, sliding handles, extensions etc.
- A strong magnet securely holds the socket rail to ferrous metals
- Additional holes are provided for wall mounting the socket rail or attaching to non-ferrous materials
- The inserts are securely locked in place by the ball on the square by rotating them through 90°.
- By turning 90° in the opposite direction the inserts are released and can be removed
- Delivery without tools
