- Ideal for use where cables need to be temporarily covered.
- Safely securing cables across pavements, walkways, roads, and events
- Weight bearing capacity approximately 12 Tonnes
- Suitable for light vehicles traffic flow at 5-10 mph

RS PRO Heavy Duty – 1 channel

RS Stock No.: 0656346

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

A range of interlocking cable protectors with highly visible flip top lids.

These heavy-duty cable protectors interlink to form a continuous ramped cable protector. The highly visible yellow hinged lid allows the cables to be inserted after the ramps are in position and each section has fixing holes provided for optional permanent fixing. Once installed, it's easy to lay and remove cables as required by lifting the hinged lid and each section can be linked together to achieve the desired length.
