STORAGE BOX

Product Description

RS PRO 200 Litre Slim Storage Box is a durable, space-efficient storage solution designed to sit flush against walls and other vertical surfaces, making it ideal for maximising storage space in workshops, warehouses, commercial premises, and industrial environments.

Manufactured to high standards, this robust, leak-free storage box provides dependable protection for tools, equipment, and materials while maintaining a slim profile that minimises its footprint. Its nestable design allows for efficient storage and transportation when multiple units are not in use, helping to reduce storage costs and improve logistics.

Designed for practicality as well as appearance, the box features a clean, modern aesthetic that complements a wide range of environments. It is also forklift and pallet truck accessible, making handling and repositioning quick and efficient.

Built for strength, practicality, and efficient use of space, the 200 Litre Slim Storage Box is an ideal solution for safely storing equipment and materials while maintaining an organised and professional working environment.
