

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and durability, ensuring long service life.
- **Outer Diameter of 6.03 mm:** Suitable for precise fitting in various mechanical assemblies.
- **Shaft Diameter of 2.99 mm:** Ensures compatibility with standard shaft sizes for seamless integration.
- **Compact Length of 3 mm:** Ideal for applications with space constraints, providing efficient performance in a small footprint.

RS PRO Sintered Bronze Plain Bearing, 6.03 mm Outer Diameter

RS Stock No: 528-241

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient motion control. Ideal for use in machinery and equipment, it provides smooth operation and reduces friction between moving parts.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	2.99 mm

Mechanical Specifications

Length	3 mm
Material	Sintered Bronze
Outside Diameter	6.03 mm
