

## FEATURES

- **Sprung folding mechanism:** Allows the handle to fold flat, saving space and reducing the risk of damage.
- **Durable materials:** Constructed from black rubber and stainless steel for enhanced longevity and resistance to wear.
- **Standard compliance:** Meets ANSI-ESD S20.20:2021 and RoHS standards, ensuring safety and environmental compliance.
- **68 mm fixing centres:** Facilitates easy installation and compatibility with various equipment.
- **Compact dimensions:** With a height of 59 mm, length of 108 mm, and width of 50 mm, suitable for tight spaces.

## RS PRO Sprung Folding Handle, Black Rubber and Stainless Steel

RS Stock No: 335-161

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

## Product Description

This RS PRO sprung folding handle is designed for secure and convenient handling of equipment and enclosures. Made from durable black rubber and stainless steel, it offers a robust solution for industrial environments. The handle's folding mechanism allows for space-saving storage when not in use, making it ideal for compact applications.
