Business travel

# Unibank's mission statement

Unibank™ provides customers with the most unique and innovative portable electronics solutions available. Through continued innovation of robust and durable products, we aim to become an acknowledged global leader in the consumer electronics industry.

## Our core values

### Innovative

The product aspires to be a futuristic, desirable technology product. Its functionality is intuitive, however there will also be a collectable array of accessories which we are hoping will develop over time. It looks a generation ahead of its time.

Unibank's high quality materials are carefully chosen to look at home in each market sector we are targeting.

### Dependable

The value of dependability reflects Unibank's quality as well as the nature of its functions.

Unibank's ability to create power on the go helps workers feel confident that they have the power to stay connected wherever they are.

### Versatile

Unibank's modular functions and additional accessories allow the user to create a device specific to their needs.

As the product grows we will continue to bring new features to the range with materials and functions.

### Robust

Unibank™ is marketed to a range of different demographics who will use the product in differing ways, therefore we have built in a robust and durable life expectancy to the product.

As well as highly durable materials, Unibank™ is available with a protective over-moulded case for people who need extra protection against drops and water ingress.

# Product Overview

# Unibank™

PRODUCT CODE / UB001

## Overview

Unibank™ is a unique pull & power charger. Simply pull the cord to charge the device, or power it via USB. Pulling the cord for just 90 seconds can give you 25 minutes talk time on a smartphone.

With its innovative technology and unlimited capacity, Unibank™ has the power to keep you connected, wherever you are.

## Key features & selling points

- Unique pull & power charger
- Can also be charged by USB
- Built in LED torch
- LED power indicators
- Choice of four attachments
- Free app for iOS and Android
- High grade components
- Environmentally friendly
- Worldwide safety standards
- User friendly

## Product FAQs

### Q. How can I check the battery level?

A. Once switched on, the four indicators on top of the Unibank™ represent battery life in 25% increments, combine Unibank™ with the app to get a displayed battery level breakdown.

### Q. Can I use the Unibank™ in cold temperatures?

A. It is recommended that any power bank is operated between -5 to 45°C.

### Q. What is best practice when charging the Unibank™?

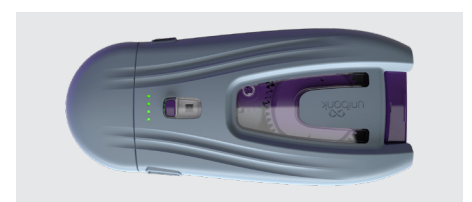

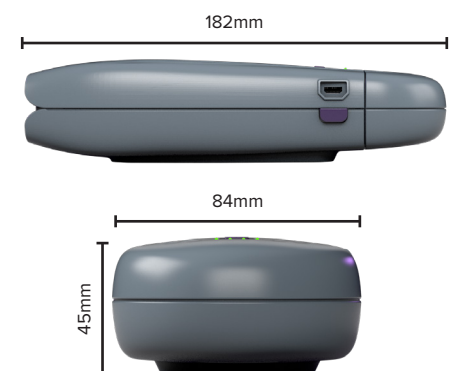

A. The Unibank™ can be charged via its pull cord or a USB cable. We recommend charging the Unibank™ via USB at least once every 2-3 months to avoid complete battery depletion.

The Unibank™ power bank

# Ambient light

PRODUCT CODE / UB002

## Overview

The ambient light attachment is a smart, bright, RGB light that can be set to thousands of colours via the free Unibank™ app.

The light can also be used in conjunction with Unibank's body clip to connect to a belt, or a person's arm – providing personal illumination.

## Key features & selling points

- **Take it with you** – In the wilderness. At a festival. At home. Unibank's portable light attachment brightens up any occasion and never runs out of power
- **Thousands of colours** – Use the full colour spectrum to change the look and feel of your surroundings. Be bright and vibrant or tone it down with a soft, white glow. The choice is yours with Unibank's colour wheel
- **Smart control** – Lighten up. Colour up. Create light instantly from the free and easy-to-use Unibank™ app. Just connect the light and download the app to get started

## Product FAQs

### Q. Will the light attachment work with any other charging sources?

A. No, it will only function while connected to the Unibank™.

### Q. How many colour variances can you save on the app?

A. You can have as many as you like.

### Q. How long will the light bulb last?

A. LED bulbs should last at least 20,000 hours.

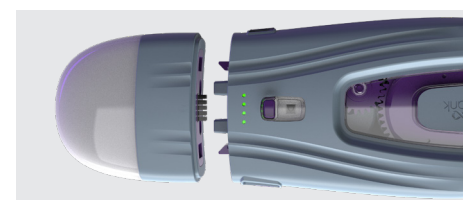

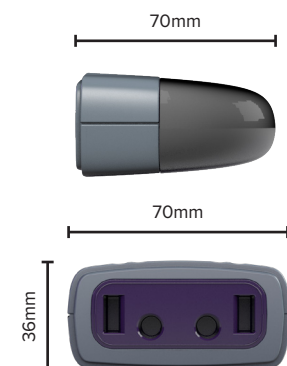

## Dimensions

Length: 70mm    Width: 70mm  
Depth: 36mm    Weight: 47.2g

## Other important specifications

Wattage equivalent: 10w

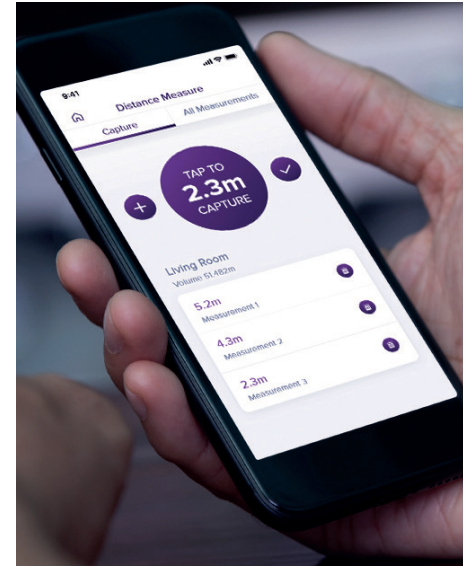

Lasts up to 30 hours from full charge

The ambient light attachment and Unibank™ power bank

# Laser line/distance measure

PRODUCT CODE / UB003

## Overview

This attachment features a laser line, distance measure, and spirit level in a single device – the first of its kind. Included with the attachment is an innovative mounting bracket which screws to the underside of the Unibank™ to allow the device to be precisely angled. Easily attaches to any tripod using a universal screw connection.

## Key features & selling points

- **The only laser line and distance measure** – Single distance. Continual measure. Volume. Area. This clever measuring tool is the first device to include both a laser line, and an accurate distance measure in the same device
- **Simple setup, smart control** – The Unibank™ app seamlessly pairs to your device, lets you store and categorise measurements, and then send them via email as an excel compatible CSV file.

## Product FAQs

### Q. What is the difference between a range finder and a laser distance measure?

A. A range finder is commonly used in cases of long distances up to 1,000m, whereas a laser measure is commonly used for shorter measurements where accuracy is paramount.

### Q. Who would commonly use a laser line distance measure?

A. Estate agents, Contractors, Plumbers, Window Installers, and many more.

### Q. How do I attach the stand?

A. The stand screws to the underside of the Unibank™ which can be positioned to your desired angle for precise accuracy.

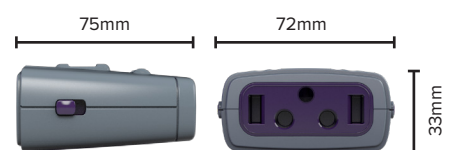

## Dimensions

Length: 75mm      Width: 72mm  
Depth: 33mm      Weight: 102.0g

# Bluetooth® speaker

PRODUCT CODE / UB004

## Overview

The Unibank™ Bluetooth® speaker seamlessly pairs with the users' smartphone to deliver a surprisingly big sound from a compact form factor.

## Key features & selling points

- **Small but mighty** – Size matters when you're on the move. This compact, lightweight Bluetooth® speaker attachment achieves a big sound – and keeps going with Unibank's uniquely rechargeable battery power
- **Never runs out of charge** – With wireless speakers, battery-life is always a factor to consider. With Unibank™, you can rest assured that you'll never run out of power
- **Simple setup, smart control** – The Unibank™ app, available from the App Store or Google Play store, seamlessly sets up your speaker, enabling you to adjust your volume and bass boost settings

## Product FAQs

### Q. How do I pair the speaker to my device?

A. For secure, simple pairing to the Bluetooth speaker, connect via the settings on your device.

### Q. How do I control the Bluetooth speaker volume?

A. You can do this in the Unibank™ app or the volume control setting on your phone. The app also offers a bass boost volume control.

### Q. How long will the Bluetooth Speaker play music for?

A. This is dependent on several variables; the type of device paired, type of music and volume level. You can see estimates of music playing time in the Unibank™ app. If the Unibank™ is used to play music on the radio it will last up to 33 hours.

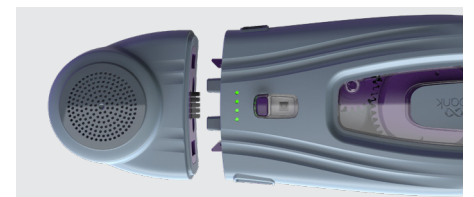

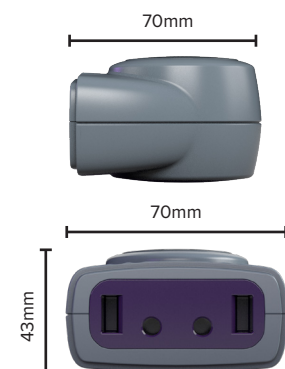

## Dimensions

Length: 70mm    Width: 70mm  
Depth: 43mm    Weight: 79.4g

## Other important specifications

Frequency Range: 150 -3KHz

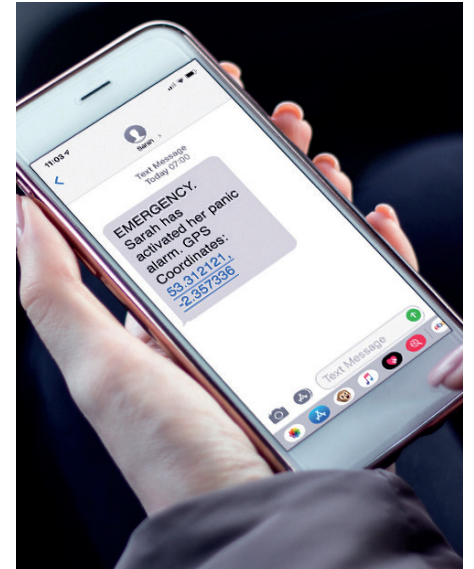

Lasts up to 33 hours from full charge

# Panic alarm

PRODUCT CODE / UB005

## Overview

The panic alarm attachment can be used as a basic alarm, which activates a 120dB siren, or as a more advanced alert system when paired with the user's smartphone.

The alarm function can be triggered by the simultaneous depression of two buttons mounted on the side (smartphone function), or pressing the top button (siren).

## Key features & selling points

- **The power to protect** – Keep yourself and your loved ones safe with Unibank's personal panic alarm attachment. Use as a loud, 120 decibel alarm or pair with your smartphone to send emergency texts to your contacts
- **Smart safety, smart control** – The free Unibank™ app allows you to set a personalised SOS message, along with your GPS coordinates. Choose a selection of contacts to receive the alert
- **Smart safety, smart control** – For even more robust security, Unibank™ has a partnership with Lone Worker Solutions to provide a multi level security solution. You can send your alert directly to a dedicated control centre, who can subsequently escalate the alert to various levels, including to the emergency services

## Product FAQs

### Q. What happens if I press the two buttons on the side of the Unibank™ accidentally?

A. By pressing the two buttons, it will send off a text to your specified recipients. If this is an accident, then you must inform them that this is not an emergency.

### Q. Is the panic alarm only designed for people in the care worker industry?

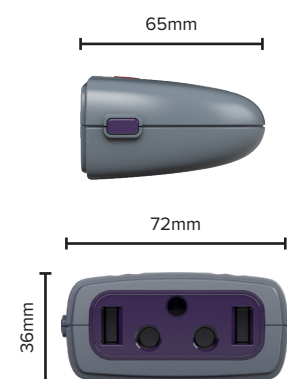

A. No, the panic alarm can provide security to anyone who may be in a vulnerable position.

## Dimensions

Length: 65mm      Width: 72mm  
Depth: 36mm      Weight: 50.5g

## Other important specifications

Panic alarm decibels: 120

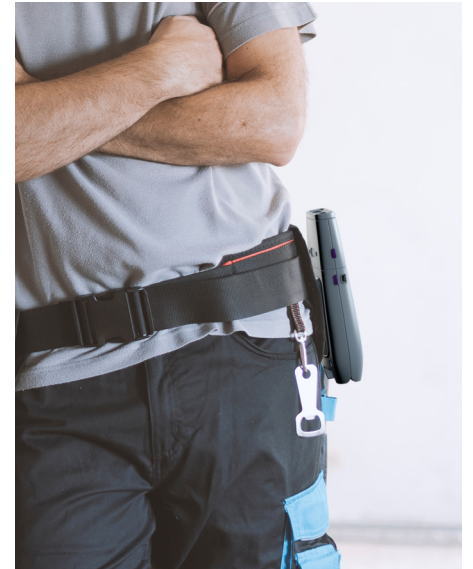

The panic alarm attachment and Unibank™ power bank

# Peripherals Overview

# Body clip & arm strap

PRODUCT CODE / UB006

## Overview

Attach Unibank™ to a belt, or wrap it around your arm with this body clip accessory. The clip simply screws to the underside of the Unibank™ power bank for a secure attachment.

## Key features & selling points

- Connect Unibank™ to a belt, or your arm
- Features a detachable clip, and supplied with an high-quality arm strap
- Screws to the Unibank's underside panel

## Product FAQs

### Q. Who would use the body clip & arm strap?

A. Builders, construction workers, railway engineers, backpackers, adventurers and many more.

### Q. Can the arm strap be adjusted to fit over high visibility/PPE jackets?

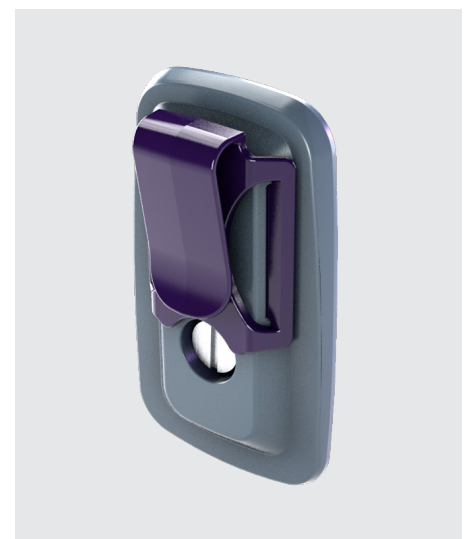

A. Yes, the length can be adjusted via hook and loop to fit over bulky clothing.

## Dimensions

Length: 104.5mm Width: 58.4mm  
Depth: 22.7mm Weight: 24.1g

## Other important specifications

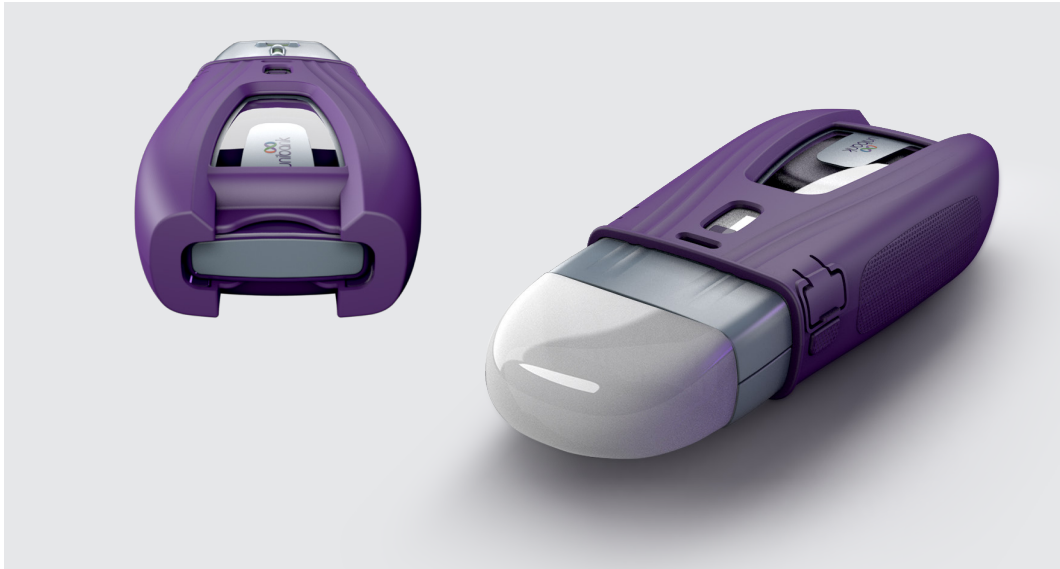

Comfortable neoprene material  
Easy to attach  
Allows variable degree of usage

The body clip accessory

# Protective silicone jacket

PRODUCT CODE / UB007

## Overview

The protective silicone jacket is an official Unibank™ accessory which provides increased protection from falls and scratches, as well as improved water ingress protection.

## Key features & selling points

- **Precise fit** – Engineered to protect the Unibank™ unit while allowing easy access to its pull cord, underside panel, and attachments
- **Enhanced grip** – The soft-touch silicone and honeycomb over-moulded pads add non-slip protection and improved grip
- **Robust protection** – Straightforward protection against bumps, scratches, accidental drops, and water ingress

## Product FAQs

### Q. How many colours are available for the protective silicon jacket?

A. Initially the protective silicon jacket is available in purple and yellow, with more colours to follow.

### Q. Can I still charge the Unibank™ via the pull cord when the jacket is on?

A. Yes, the jacket does not inhibit the use of the pull cord.

## Dimensions

Length: 146mm    Width: 90mm  
Depth: 42mm    Weight: 60.7g

## Other important specifications

Available in attractive colours

Easy to clean

Light, soft and flexible

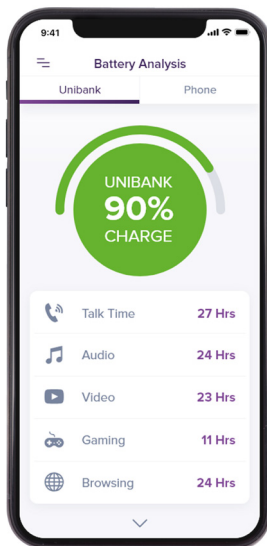

Also available in yellow

# Unibank™ Digital Overview

# The Unibank™ App

The Unibank™ app is available from Google Play and the App Store, allowing users to take control of their Unibank™ power bank and attachments.

## Battery analysis

This part of the app will show in-depth analytics of both the Unibank's and the smartphone's batteries, including estimated battery life available under various conditions.

Graphics will show power up/ depletion levels and rates.

The app utilises as much data as is useful and available from both the Unibank™ system and the smartphone and displays it in an easy-to-understand interface.

## Ambient light

The ambient light app utilises a colour wheel and brightness slider to allow the user to pick any colour from the spectrum. Colours can be saved by simply pressing the '+' icon.

The light is also toggled on and off from the app.

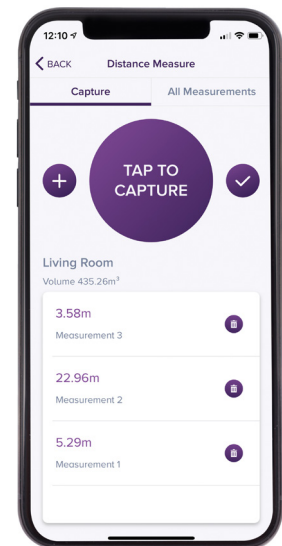

## Panic alarm

The free\* version of the panic alarm's accompanying app allows the user to create a personalised SOS text message to send to a selection of chosen contacts. The emergency message can also include GPS coordinates.

The panic alarm also has an optional paid-tier subscription, which provides a multi-level lone worker panic alarm solution, with MITIE providing the end user service and response.

\*Due to device restrictions, the iOS version of the app requires users to purchase credits after an initial, 10 free credits are used. The Android version can send unlimited, free messages.

## Laser measure

The accompanying app for this attachment captures and stores measurements from the laser measuring device. The app can automatically calculate volume and area, as well as group measurements (e.g. 'Living room').

Groups of measurements can then be emailed to the user as a spreadsheet (csv) file.
