

## FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and durability, ensuring long service life.
- **16 mm Length:** Suitable for applications requiring specific bearing dimensions.
- **10.03 mm Outer Diameter:** Ensures compatibility with standard housing dimensions.
- **5.99 mm Shaft Diameter:** Designed to support shafts with precision, reducing friction and wear.

**RS PRO 16 mm Sintered Bronze Plain Bearing, 10.03 mm Outer Diameter**

RS Stock No: 528-954

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational movement. With a 16 mm length and a 10.03 mm outer diameter, it is ideal for supporting shafts with a diameter of 5.99 mm. The sintered bronze construction ensures durability and excellent wear resistance, making it suitable for various industrial environments.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	5.99 mm

## Mechanical Specifications

Length	16 mm
Material	Sintered Bronze
Outside Diameter	10.03 mm
