

## FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **20 mm Length:** Suitable for compact installations, saving space without compromising performance.
- **33.06 mm Outside Diameter:** Ensures a secure fit within standard housings, enhancing stability.
- **27.98 mm Shaft Diameter Compatibility:** Designed for precise fitment, reducing vibration and noise.

**RS PRO Sintered Bronze Plain Bearing, 20 mm Length**

RS Stock No: 528-018

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

## Product Description

This RS PRO plain bearing is crafted from high-quality sintered bronze, offering reliable performance in various industrial applications. Designed for use with a 27.98 mm shaft diameter, it ensures smooth operation and reduced friction, enhancing the longevity of machinery components.

## General Specifications

|                |               |
|----------------|---------------|
| Product Type   | Plain Bearing |
| Shaft Diameter | 27.98 mm      |

## Mechanical Specifications

|                  |                 |
|------------------|-----------------|
| Length           | 20 mm           |
| Material         | Sintered Bronze |
| Outside Diameter | 33.06 mm        |
