

RENOLIT LX 2 EP High Temperature Multipurpose Grease

Description

RENOLIT LX 2 is a multipurpose lubricating grease based on lithium complex soap for long-term lubrication.

RENOLIT LX 2 is work stable, water resistant, thermally and mechanically high loadable, resistant to aging and particularly anticorrosive.

Application

RENOLIT LX 2 is recommended for all lubricating points particularly where high demands on service life, temperature capability and corrosion protection are required.

RENOLIT LX 2 is suitable for permanent and longterm lubrication. Unnecessary shutdown periods or extensive maintenance works at hardly accessible aggregates can thus be avoided.

RENOLIT LX 2 can be used for lubrication of e.g.

- Electric motors
- Clutch release bearings in passenger cars
- Bearings of hot air fans
- Bearings in construction machinery
- Forging presses

Advantages

- Multipurpose lubricating grease
- Water resistant
- Aging resistant
- Thermally high loadable
- Mechanically high loadable
- Work stable
- Good corrosion protection

Shelf Life

The minimum shelf life is 36 months if the product is properly stored between 0°C and 40°C in its unopened original container in a dry place. The indication of a minimum shelf life does not include any guarantee of durability.
