

Features

- High temperature resistance
- Lightweight highly advanced fire insulation materials
- Robust industrial grade aluminium
- Top carry handle for easy one person transportation
- Vented with flame arrestors for controlled pressure release
- Easy to use clasp fasteners

RS PRO Lithium-ion Battery Aluminium Storage Case

RS Stock No.: 0597263

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that

every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

Product Description

Expertly designed for the safe storage and transportation of lithium-ion batteries; aluminium storage cases are an efficient solution for protecting against the risk of fire.

The strong aluminium construction keeps the case light enough for easy transportation but strong enough to retain complete integrity should an event occur. Corrosion resistant and durable, with a comfortable convenient carry handle mounted on the lid, it can be easily lifted and carried by just one individual. Should a battery enter thermal runaway during transportation then the combination of vents fitted with flame arrestors allow for the controlled release of pressure without the risk of ensuing flame.

Suitable in a variety of applications such as waste and recycling facilities, warehousing, e-bike and scooter services and industries, EV automotive safety, electronic manufacturers and many more.

General Specifications

Product code	0597263
Model number	FRBAC28
Description	Lithium-ion Battery Aluminium Storage Case - 28l
Internal Dimensions (mm)	350 x 225 x 400
External Dimensions (mm)	380 x 260 x 390
