

FEATURES

- **Sintered Bronze Construction:** Provides excellent wear resistance and durability, ideal for long-term use.
- **10 mm Length:** Suitable for compact installations where space is limited.
- **12.04 mm Outer Diameter:** Ensures a snug fit within housings, enhancing stability.
- **8.98 mm Shaft Diameter Compatibility:** Designed to support specific shaft sizes, reducing play and vibration.
- **Self-Lubricating Properties:** Minimises maintenance requirements, offering a cost-effective solution.

RS PRO 10 mm Sintered Bronze Plain Bearing, 12.04 mm Outer Diameter

RS Stock No: 528-267

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is crafted from high-quality sintered bronze, designed for applications requiring reliable and efficient rotational movement. With a 10 mm length and 12.04 mm outer diameter, it is ideal for supporting shafts with an 8.98 mm diameter, ensuring smooth operation and reduced friction.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	8.98 mm

Mechanical Specifications

Length	10 mm
Material	Sintered Bronze
Outside Diameter	12.04 mm
