

P52-SL-20

Lightweight Extra Precision Hedge Shears with Aluminium Handle 590 mm

PRODUCT DETAILS

- Light, compact and well-balanced hedge shears with aluminium handles of 35 cm and razor-sharp blade of 180 mm
- Ideal for topiary work and other shaped cutting
- The sharpened edges of the blades slide against each other and work like a pair of scissors. The pointed blades give better precision. The size of the blades allow deep penetration in the crop, and cuts faster on larger surfaces
- Good maneuverability thanks to slim rounded-shaped handles. This allows different positions of the hands. The black sleeve adds comfort.
- The buffers absorb shock and vibration. They cannot get loose
- A leather sheath for the blade is included to avoid injuries and for better protection when not in use
- Spare parts available
