RS Pro Engineers File

EN

Introducing the warding file from our trusted and reliable own brand RS PRO, a durable tapered file ideal for deburring and repair locks and keys. This filing hand tool is perfect for accessing narrow spaces and filing with precision due to its tapered design. The RS PRO warding file is also compatible with our range of ergonomic file handles for improved comfort and grip.

Product feature:

- Engineer's files -for stock removal and surface finish requirements on machined components
 - High carbon content steel
 - Handle material: PP and TPE
 - Double-cut surfaces, edges and surfaces tapered to the tip
- Type of cut: Second
- Compatible with RS PRO file handles
