

Clever Little Box

• **CLB-E-R20DP020: MIGRIP Latch-Locking DisplayPort Cable, M/M 5m**

DisplayPort MiGrip male-to-male, 5 metre long cable with latching connectors.

DisplayPort MiGrip Cables are a range of high quality AV cables which feature push-button latch-locking connectors to prevent cable becoming loose or falling out of a laptop or AV device's socket.

These latch locking DisplayPort connectors are fully compatible with standard DisplayPort sockets, but feature additional latch points as part of the plug molding which hold them firmly in place within the socket, preventing faulty or loose connections and saving service engineer costs and downtime.

Features:

- Push-button, latch-locking DisplayPort connectors for secure connectivity
- Prevents loose/faulty connections
- 5 metre cable
- Male-to-Male connectors
- Gold-plated connectors
- Compatible with standard DisplayPort sockets (no special DisplayPort socket required for latch locking)

Locking AV Connectors
