- Double syringe
- Compatible with the majority of metal
- Can be drilled, tapped, machined and painted

## RS PRO, 25 ml Black Syringe Epoxy Adhesive for Metal

RS Stock No.: 850-962

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

RS Pro 25ml epoxy is a rapid curing epoxy adhesive that has brilliant strength and can be used in most situations. With its double syringe you will get the perfect mixing amounts to ensure your end cure is solid. Once the epoxy has cured after 24 hours it can be machined, tapped, drilled and painted over. Painting over your epoxy will future proof it against abrasion, corrosion and chemicals..
