CLEAR MOULD PROTECT

Technical Data Sheet

Product name: Clear Mould Protect   Creation date: 08/2016   Version: 1
                                                                              Replaces: 0

1: General description

Temporary corrosion protection for short-term mould tool protection. No need for cleaning as the product moulds off during the first production cycles.

2: Features

- Thanks to its low surface tension, Clear Mould Protect repels humidity on metal surfaces. It forms a transparent protective film on the surface.
- High covering power.
- Transparent film.
- Neutralises fingerprints.
- Chemically inert for alloys and non-ferrous metals.
- Registered NSF N° 139851 H2
- 360° valve allows to use the product upside down.

3: Applications

Protection of parts machine-finished with emulsions or water-based solutions.

4: Directions

- Parts should be degreased, clean and dry prior to application.
- Apply an even coating. Make sure you cover the total surface.
- Inspect the treated tools on a regular base and re-apply when needed.

A safety data sheet (SDS) according to EC Regulation N° 1907/2006 Art.31 and amendments is available for all CRC products.

5: Typical product data (without propellant)

- Colour: Transparant
- Odour: Characteristic
- Density (at 20 °C):   0.709 g/cm³

6: Packaging

Aerosol   12x500 ML

All statements in this publication are based on service experience and/or laboratory testing. Because of the wide variety of equipment and conditions and the unpredictable human factors involved, we recommend that our products be tested on-the-job prior to use. All information is given in good faith but without warranty neither expressed nor implied.

This Technical Data Sheet may already have been revised as a result of a change in legislation, availability of components or newly acquired experiences.
