

FEATURES

- **Sintered Bronze Material:** Offers superior wear resistance and longevity, ensuring reliable performance over time.
- **4 mm Length:** Compact size suitable for applications with limited space.
- **7.03 mm Outside Diameter:** Ensures a snug fit in compatible housings, reducing vibration and noise.
- **3.99 mm Shaft Diameter:** Designed for precise alignment and smooth operation with compatible shafts.
- **Plain Bearing Design:** Simplifies installation and maintenance, reducing downtime.

RS PRO 4 mm Sintered Bronze Plain Bearing

RS Stock No: 528-920

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for smooth and efficient operation in various mechanical applications. Made from high-quality sintered bronze, it provides excellent wear resistance and durability, making it ideal for reducing friction between moving parts.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	3.99 mm

Mechanical Specifications

Length	4 mm
Material	Sintered Bronze
Outside Diameter	7.03 mm
