GENERAL PRODUCT DESCRIPTION:

Shielded modular ethernet jacks.

REASON FOR CHANGE:

To reduce product lead-time and streamline production, the laser marking of shields will be completed post-assembly.

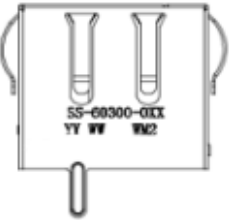

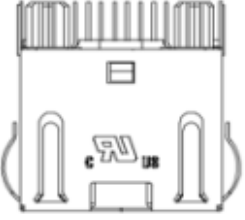

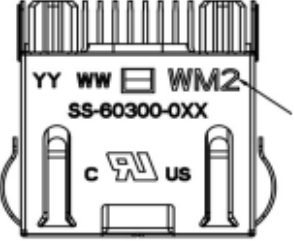

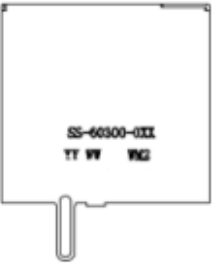

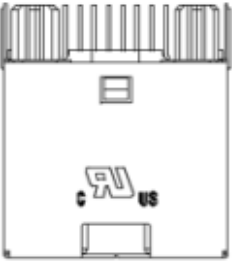

DESCRIPTION OF CHANGES:

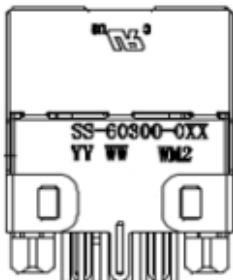

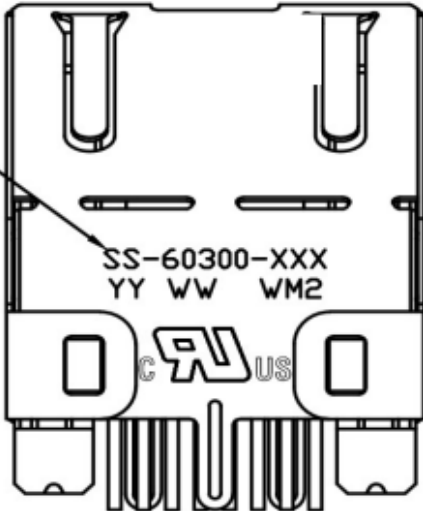

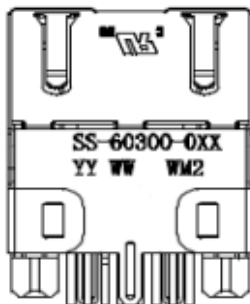

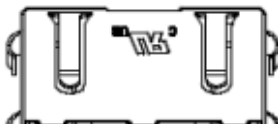

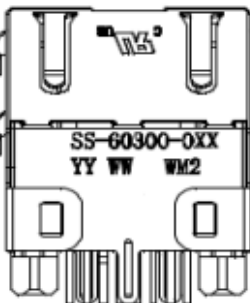

To improve efficiency, laser marking of shields with Logos, Date-Codes, Location of Manufacture, Part Number and appropriate UL symbol (when applicable) will be consolidated into a single process step. Currently, these markings are added at various production stages. The new method will result in all markings co-located on the same side of the metal shield as noted in Appendix A.
