

Features

- * Accepts mechanical and fusion splices
- * Adjustable grips on each corner
- * Prevents over-compression of the loose tube cable
- * Accommodates up to 12 splices

Mechanical Splice Sleeves

Fusion Splice Sleeves

Universal Splice Tray

MOD-TAP's Universal Splice Tray is a unique configurable enclosure for both mechanical and fusion splices.

Each Tray can accept either two fusion splice sleeves or two mechanical splice sleeves. Loose tube cable is routed into and out of the tray through unique adjustable tube grips located at each corner. These grips eliminate the need for separate cable ties and being adjustable, are easily tightened and loosened preventing over-compression of the loose tube cable.

Part No.	Description
91.A1150	12 Fibre fusion splice tray Splice Tray with cover, including 2 fusion splice sleeves.
91.A1160	Splice tray with cover, including 2 mechanical splice sleeves.
