

Marker-Mate™ | Electronic Marker Locator

APPLICATIONS:

Marker-Mate is designed to locate buried electronic markers, including the patented Tempo Omni Marker™, and Uni Marker™. In fact, Marker-Mate sets an industry standard with the capability of detecting seven electronic marker types simultaneously (power, water, sanitary, telephone, gas, cable TV, non-potable water). Marker-Mate is user-selectable for any of the marker types, or the Scan mode will locate all marker types simultaneously and automatically determine which type is detected. Marker-Mate scan mode and its pinpoint accuracy reduces time spent locating buried utilities marked by Omni Markers, and Uni Markers. The Marker-Mate advanced pinpoint feature allows the user to adjust its detection threshold, making it possible to narrow the detection area to a precise location. Utilizing digital signal processor technology, the Marker-Mate is the most sophisticated and highest performing locator available. At the same time, the Marker-Mate was built to operate in all weather conditions. Tempo's Marker-Mate, Omni Marker, and Uni Marker...a complete solution.
