

## FEATURES

- **Sintered Bronze Material:** Provides high wear resistance and durability, extending the lifespan of the bearing.
- **1 in Length:** Suitable for compact installations, saving space in machinery.
- **0.87 in Outside Diameter:** Ensures compatibility with a wide range of housings.
- **0.74 in Shaft Diameter:** Designed to fit standard shaft sizes, facilitating easy integration.

## RS PRO 1 in Plain Bearing, Sintered Bronze

RS Stock No: 528-124

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent wear resistance and durability, making it ideal for use in various industrial settings. The compact size ensures it fits seamlessly into machinery, providing smooth operation and reducing maintenance needs.

## General Specifications

|                |               |
|----------------|---------------|
| Product Type   | Plain Bearing |
| Shaft Diameter | 0.74 in       |

## Mechanical Specifications

|                  |                 |
|------------------|-----------------|
| Length           | 1 in            |
| Material         | Sintered Bronze |
| Outside Diameter | 0.87 in         |
