

Datasheet**RS PRO****Flowable gap putty, 2W/m K**

Stock No: 193-8247

**Technical Specifications:**

| Characteristic | Test Method | Result |
|---|-------------|------------|
| Colour | Visual | Light Blue |
| Thermal conductivity W/m.K | ISO 22007-2 | 2 |
| Thermal impedance °C-in ² /W | ASTM-D5470 | 0.06 |

Features & Benefits:

- No flowing when set
- Maintains good contact with components
- Convenient for usage
- Good thermal conductivity

Applications:

- Communications equipment
- Automotive electronics
- Small office, and networking equipment
- Cooling modules

Available product size: 30cc

Approx dimensions: 120x38x38mm

Weight: 100g

Compatible dispense gun: 1938246
