

## CUTties - Tie Removal Tool

### UTILISATION

A tool for the removal of cable ties without damaging the insulator of wire or cable. The tie can be cut at any point and does not require the head of the often inaccessible tie to be reached. It does not leave any broken off excess tie, likely to pollute the work environment. There are three sizes of tools depending on the cable tie width. The colour of the pushbutton makes it possible to identify them.

Yellow Pushbutton - Cable tie width 2.5-2.8mm. For HellermannTyton ties T18 and T25.

Green Pushbutton - Cable tie width 3.5-4.0mm. For HellermannTyton ties T30 and T40.

Red Pushbutton - Cable tie width 4.6-4.7mm. For HellermannTyton ties T50 and T80.
