

Differential pressure regulator LRL, LRLl

Differential pressure regulator LRL, LRLL

Characteristics

At a glance

The differential pressure regulator maintains a manually set differential pressure between the input pressure at the screw-in thread and the output pressure at the push-in connector.

- Pressure applied at the push-in connector can be exhausted with no change in pressure at the connecting thread thanks to an integrated check valve.
- Constant pressure difference between input and output
- Without secondary exhaust
- Without pressure gauge

Series

[LRL] Differential pressure regulator

Outlet at the top

[LRLL] Differential pressure regulator

Outlet to the side

Pneumatic connection 1

Connecting thread M5, R1/8, R1/4, R3/8, R1/2

Pneumatic connection 2

Push-in connector for tubing outside diameter 4, 6, 8, 10, 12 mm

Type code

001	Series	
LRL	Differential pressure regulator	
LRLl	Differential pressure regulator	
002	Pneumatic connection 1	
1/8	Male thread R1/8	
1/4	Male thread R1/4	
3/8	Male thread R3/8	
1/2	Male thread R1/2	
M5	Male thread M5	

003	Pneumatic connection 2	
QS-4	Push-in connector, 4 mm	
QS-6	Push-in connector 6 mm	
QS-8	Push-in connector 8 mm	
QS-10	Push-in connector 10 mm	
QS-12	Push-in connector 12 mm	
004	System of units	
	Metric	

Datasheet

General technical data

Pneumatic connection, port 1	M5	R1/8	R1/4	R3/8	R1/2
Pneumatic connection, port 2	QS-4, QS-6	QS-4, QS-6, QS-8	QS-6, QS-8, QS-10	QS-8, QS-10, QS-12	QS-12
Design	Directly actuated piston regulator With through compressed air supply				
Controller function	Differential pressure constant, With return flow function				
Pressure regulation range	2 ... 6 bar				
Actuator lock	Counter-locking				
Type of mounting	Screw-in				
Mounting position	optional				

Function

Operating and environmental conditions

Inlet pressure 1	0 ... 0.9 MPa
Inlet pressure 1	0 ... 9 bar
Inlet pressure 1	0 ... 130.5 psi
Operating medium	Compressed air to ISO 8573-1:2010 [7:-:-]
Note on operating and pilot medium	Lubricated operation possible (in which case lubricated operation will always be required)
Ambient temperature	0 ... 60°C

Materials

Material housing	PBT-reinforced
Material screwed plug	Nickel-plated brass
Material thread seal	PTFE
Note on materials	RoHS-compliant
LABS (PWIS) conformity	VDMA24364-B1/B2-L
