

## FEATURES

- **Sintered Bronze Material:** Provides high wear resistance and durability, extending the lifespan of the bearing.
- **12 mm Length:** Compact size suitable for applications with limited space.
- **18.04 mm Outside Diameter:** Ensures a snug fit in compatible housings, reducing vibration and noise.
- **11.98 mm Shaft Diameter:** Offers precise alignment and smooth rotation, improving machinery efficiency.

## RS PRO 12 mm Sintered Bronze Plain Bearing

RS Stock No: 528-298

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent wear resistance and durability, making it ideal for use in various industrial settings. The bearing's compact design ensures smooth operation in tight spaces, enhancing the performance of machinery.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	11.98 mm

## Mechanical Specifications

Length	12 mm
Material	Sintered Bronze
Outside Diameter	18.04 mm
