

## Datasheet

# 6.3A, 2 Way Rotary Switch

RS Stock number [450-8968](#)

### Descriptions:

#### Rotary Voltage Selector

A rotary action two-position voltage selector switch designed to select between series (240V) and parallel (120V) operation of twin primary transformers. The switch is supplied with a square bezel to provide full compatibility with the 13mm fuse holders (see Fuses section)

Suitable for use in Class II equipment

Connection via solder terminals

### Specification:

- Contact Current Rating 6.3 A
- Contact Material Copper Aluminium
- Maximum Operating Temperature +85°C
- Minimum Operating Temperature -40°C
- Mounting Type Panel Mount
- Number of Switch Positions 2
- Terminal Type Solder

Dimensions:
