- Conforms to the European safety standard EN 1492-1 for textile slings

RS PRO 3m Yellow Lifting Sling Round, 3t

RS Stock No.: 124-4867

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

Lift heavy cargo efficiently and safely using this round lifting sling from RS PRO. It can handle a maximum weight of 3 tonnes as a straight pull load, so it's just as strong as a metal chain. Being made from polyester, however, it's far more lightweight – not to mention flexible and shock-absorbing, so there's less risk of damage to your goods. This sling is colour-coded to indicate load capacity. This yellow model can hoist loads of up to 2.4 tonnes when used together with a choke hitch.
