

FEATURES

- **High Tensile Steel:** Offers superior strength and durability for heavy-duty applications
- **90 mm Length:** Suitable for a variety of fastening needs, providing versatility in use
- **M27 Thread:** Ensures compatibility with standard nuts and components
- **Natural Finish:** Provides a clean, professional appearance and resists corrosion
- **Grade 10.9:** Delivers high tensile strength, making it suitable for structural applications

RS PRO 90 mm Hexagon Bolts, High Tensile Steel

RS Stock No: 334-337

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

Product Description

These RS PRO hexagon bolts are designed for high-strength fastening applications. Made from high tensile steel, they provide reliable performance in demanding environments. Ideal for construction and engineering projects, these bolts ensure secure and durable connections.

General Specifications

Finish	Natural
Grade	10.9
Product Type	Hexagon Bolts
Thread	M27

Mechanical Specifications

Length	90 mm
Material	High Tensile Steel

Approvals

Standards/Approvals	DIN 931, ISO 898-1
