

Freecom FHD-3 external hard drive

Intelligent hard drive with SYNC button and unique stackable & modular concept

Freecom FHD-3 7200rpm external hard drive

- Fast and silent external hard drive with One Button Data Synchronization
- Robust, heat absorbing aluminium enclosure for optimal cooling
- New storage concept provides easy extension with future Freecom peripherals
- Can be positioned horizontally and vertically, using the supplied footstand
- Add additional storage capacity to your computer in seconds!
- Easy to install, small form factor, ideal for both home and office use
- High quality, sleek design, only 175 x 144 x 44 mm, easy to take with you
- Including award-winning Acronis True Image software
- Including Freecom software suite (password protection, sync, secure & zip, autorun)
- Two years manufacturers warranty and unlimited free helpdesk support

Designed for:

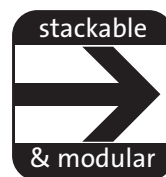

- **Data storage;** use all your data like business information and digital photos, videos, MP3's and all other files directly from the drive
- **File sharing;** share all your important data between computers and networks
- **Backup;** protect your data against calamity, human errors and computer viruses
- **Archiving;** archive all your data and lock up the drive safely for extra data security
- **Modularity;** stack other modules (AV modules, Cardreader, Network module) on top of each other

The next generation in storage concepts!

Welcome to a new era in external hard drive storage! The Freecom FHD-3 offers a new, unprecedented concept of data storage. What seems like just another external hard drive is in fact the start of a new modular concept with the FHD-3 as the source. In the near future you will be able to find more Freecom products in the same look as the FHD-3, thereby making it possible to stack one unit on top of the other and creating a stack of multimedia products which could develop into the center of your personal data life. Think about adding an AV unit, enabling you to watch movies from your FHD-3 on your own TV. Or a Wireless adapter, enabling you to share the data on the FHD-3 in a wireless environment.... The possibilities are endless. Keep it simple!
