

ROCOL®

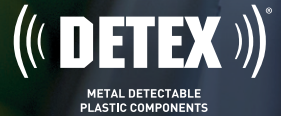

# FOODLUBE®

Trusted lubricating performance,  
certified PFAS free

For over 20 years, FOODLUBE has been the lubrication solution of choice in the food, beverage and pharmaceutical industries.

PFAS  
FREE  
FORMULATIONS

## What are PFAS?

**PFAS (per- and polyfluoroalkyl substances)** are a large and diverse group of thousands of synthetic chemicals, widely used in products ranging from everyday household items to industrial lubricants. Commonly referred to as forever chemicals due to their persistence in the environment, PFAS have been detected in food and water supplies, raising global concerns about potential risks to both human and animal health.

In response to growing evidence of their long-term effects, governments and regulatory bodies worldwide are actively evaluating restrictions and potential bans on their use.

## What is NSF 537?

537 is a certification introduced by NSF in March 2025 that confirms products are PFAS-Free. It involves strict testing of raw materials, formulation transparency, and supply chain auditing, giving assurance of safety and compliance.

## ROCOL's FOODLUBE range of products are PFAS Free\*

While a comprehensive ban on PFAS is not yet in place, as a market leader in food-grade lubricants, we are committed to keeping our customers ahead of the curve. We have listened closely to our partners in the food and other hygiene-critical industries, who wish to take every possible step to minimise their environmental impact.

**The FOODLUBE range** is trusted worldwide for both its exceptional performance and its uncompromising food safety standards. Backed by leading accreditations - including the latest **NSF 537 PFAS-Free certification, NSF H1 registration, and ISO 21469 certification** - FOODLUBE delivers proven technical reliability while ensuring the highest levels of food safety, hygiene, and contamination control.

### All products in the Rocol FOODLUBE range:

- ▶ Are free from MOSH or MOAH content
- ▶ Contain no mineral hydrocarbons
- ▶ Do not sustain bacterial growth
- ▶ Are non-GMO
- ▶ Are nut-free
- ▶ Contain no sesame-derived ingredients
- ▶ Contain no animal-fat derived ingredients
