

STANLEY

STANLEY 150 mm Junior Hacksaw

0-15-218

Features:

- Square rigid tube mounting for strength
- Lightweight and strong moulded handle
- Lever incorporated in the handle allowing a rapid change in the blade

Description:

The STANLEY 150 mm Junior Hacksaw with plastic handle has been designed for fine cutting of metal. The saw has a square rigid tube design that is lightweight and strong. Blade change has been made easy with a lever built in within the handle for quick release of the blade.
