

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and self-lubricating properties for reduced maintenance.
- **8 mm Length:** Compact design suitable for tight spaces without compromising performance.
- **11.04 mm Outside Diameter:** Ensures a secure fit in compatible housings for stable operation.
- **6.98 mm Shaft Diameter:** Precisely engineered to accommodate standard shaft sizes, enhancing compatibility.

RS PRO 8 mm Sintered Bronze Plain Bearing

RS Stock No: 528-245

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS PRO offers a high-quality sintered bronze plain bearing designed for smooth and efficient operation in various mechanical applications. This bearing is ideal for reducing friction between moving parts, ensuring longevity and reliability in demanding environments.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	6.98 mm

Mechanical Specifications

Length	8 mm
Material	Sintered Bronze
Outside Diameter	11.04 mm
