

ORGANISER | TB-B1-O-30

The ToughBuilt® StackTech® Organiser is engineered for Pros to build a system unlike any other and customise it to the needs of every trade.

The StackTech Organiser is built to keep Pros sorted and working smarter and more efficiently. It features an intuitive self-aligning see-through top that allows StackTech boxes and totes to virtually stack themselves. An auto-locking interface ensures boxes seat securely, lock into place for transport, and easily unlock with a slide of the switch. A prominent lock indicator lets you know your Stack is safe to move without second guessing. Accessing tools is simple and intuitive with a one-handed center latch, standard to every size toolbox and organiser. Inside, you'll find 8 deep bins and 4 dividers offering ample capacity to help Pros stay organised and partition their space. Full customisation is at Pros fingertips with tool-free, quick-release steel accessory rails. StackTech Organiser is built for high-impact durability with armored corners, a steel-reinforced lid, and IP65 dust and water protection to ensure it can handle the toughest conditions. Dual locking points secure tools on and off the jobsite.
