

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and durability, ensuring long service life.
- **1.62 in Outside Diameter:** Suitable for various shaft sizes, offering flexibility in application.
- **1-3/4 in Length:** Compact design fits into tight spaces without compromising performance.
- **1.37 in Shaft Diameter Compatibility:** Ensures a precise fit for optimal functionality.
- **Plain Bearing Design:** Offers low friction and maintenance-free operation, reducing downtime.

RS PRO Sintered Bronze Plain Bearing, 1.62 in Outside Diameter

RS Stock No: 558-560

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational movement. Ideal for use in machinery where low friction and high wear resistance are essential, this bearing ensures smooth operation and longevity.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	1.37 in

Mechanical Specifications

Length	1-3/4 in
Material	Sintered Bronze
Outside Diameter	1.62 in
