Weathersafe Extreme Single Gang 13A Switched Socket

The safest way to take power outdoors. There is no need for running extension cables outside as it features a fully IP66 weatherproof casing. The WXT101 and all the extreme range features an impact resistant solid ribbed lid. The IP66 protective housing has multiple replaceable cable outlets and is suitable for all BS 13A plugs.

- Weathersafe 'Extreme' impact resistant solid ribbed lid.
- Single gang switched socket – suitable for all 13 amp BS plugs.
- Lockable cover facility.
- Impact resistant housing.
- Easy release lid catch.
- Multiple M20 threaded screw-outs.
- Power 'ON' neon indicator showing switch status.
- Spacious design allowing full closure of lid with plug in position.
- Complies with BS1363.
- IP66 weatherproof rating.

WXT103N

- Power 'ON' neon indicator showing switch status.
- Spacious design allowing full closure of lid with plug in position.
- Complies with BS1363.
- IP66 weatherproof rating.

See page 94 for product specifications.

All these products carry a 3 year guarantee.

Be Extremely Safe!

Approximately 1000 accidents involving electric shock at work happen every year, around 30 of which are fatal.

Even non-fatal shocks can cause severe or permanent injury.

Whenever sockets and switches are installed outside or in public spaces, extra protection is called for to ensure the installation is reliable, electrically safe and secure against vandalism and theft.

The Timeguard Vision range of outdoor sockets and switches cover all three areas of concern providing all the reassurance that you need.

Lockable cover facility (illustrated with padlock in place).

Application Options

Weathersafe Extreme and Vision outdoor sockets are the safe way to take power outside. In addition to providing protection when using gardening equipment they are essential for all areas where electric equipment is used outdoors.
