

## Band clamps

# Clamping frames and curves

For even clamping on both sides without warping or skewing of the workpiece. Clamping curves, polygonal connections and closed contours are traditionally some of the most difficult clamping jobs. BESSEY has come up with a startling solution to this problem: in the form of the patented band clamp BAN 700, and the practical Vario corners. These two products are suitable for all those situations where gentle, non-warping, all-round clamping is needed. Universally applicable. For wood and plastic as well as in metal construction. Secured by an automatic locking system that ensures even tractive forces on both sides, which do not slacken until the clamp is released. No warping – no stress!

Nº	Clamping range	Band w x d		
		mm		kg
BAN700	Up to 7 m	25 x 1	60°-180°	0.56

Nº	Clamping range	Band w x d	
		mm	kg
BAN400	Up to 3.8 m	24 x 1	0.54
