

CY8CKIT-062-BLE PSoC® 6 BLE Pioneer Kit

Release Notes

Release Date: July 17, 2018

Thank you for your interest in the CY8CKIT-062-BLE PSoC® 6 BLE Pioneer Kit. This document lists kit contents, installation requirements, kit documentation, limitations, and known issues.

Kit Contents

The CY8CKIT-062-BLE PSoC 6 BLE Pioneer Kit box includes the following:

- PSoC 6 BLE Pioneer Board
- CY8CKIT-028-EPD E-INK Display Shield
- [CY5677 CySmart™ BLE 4.2 USB Dongle](#)
- USB Type-A to Type-C cable
- Six wires
 - Two jumper wires of length 5 inches each
 - Four proximity wires of length 4 inches each
- Quick Start Guide

Software and Tools

This kit's code examples require PSoC Creator™ 4.2 or later. This is available with the kit installer or on the PSoC Creator webpage (www.cypress.com/psoccreator).

PSoC Programmer 3.27 or later and KitProg2 v1.05 or later are required to program the [PSoC 6 MCU with Bluetooth Low Energy \(BLE\) Connectivity](#) on the kit. The PSoC Creator installer or the kit installer automatically installs PSoC Programmer and KitProg2 drivers.

The [CySmart 1.3](#) desktop application and [CySmart mobile application](#) are required to evaluate the code examples with BLE. The CySmart iOS and Android apps are available for download on the [App Store™](#) and [Google Play™](#) store respectively.

Code Examples and Kit Collateral

The CY8CKIT-062-BLE PSoC 6 BLE Pioneer Kit [webpage](#) includes the setup files (EXE) to install the code examples, documents, and hardware files of the kit.

Installation

Installation instructions are provided in the CY8CKIT-062-BLE PSoC 6 BLE Pioneer Kit Guide, which is available on the kit [webpage](#).

Kit Revision

This is the Rev *E version of the CY8CKIT-062-BLE PSoC 6 BLE Pioneer Kit software. In the Kit software, seven code examples have been replaced with their RTOS versions.

Limitations and Known Issues

The following are the limitations and known issues in this revision of the CY8CKIT-062-BLE PSoC 6 BLE Pioneer Kit. These issues will be resolved in future revisions of this kit.

- **Issue:** The PSoC 6 MCU resets during a wake-up event from Deep-Sleep power mode if all the following conditions are met:
 - Deep-Sleep duration is longer than 30 ms
 - 1.1-V LDO is used to power V_{CCD}
 - V_{DD} is set to 1.8 V

Workaround: If the Deep-Sleep duration is longer than 30 ms, either use the 0.9 V/1.1 V SIMO buck or select a V_{DD} higher than 1.8 V using the V_{DD} selection switch (**SW5**) on the kit.

- **Issue:** The CySmart iOS application does not support the CapSense Button service of the CE220167 code example.

Workaround: Use the CySmart Android application for this code example.

- **Issue:** The PDM mic and IMU (motion sensor) on CY8CKIT-028-EPD E-INK Display Shield require a supply voltage of 3.3 V to function properly. Support for 1.8 V will be added in the next revision.

Workaround: Ensure that SW5 is set to 3.3 V or 1.8 V-3.3 V VARIABLE, with PSoC Programmer selecting a voltage of 3.3 V in the latter case.

For limitations and known issues with PSoC 6 MCU, refer to the [PSoC 6 MCU datasheet](#).

Documentation

The kit documents are located in the *Documentation* folder in the installation directory. The default location for the kit documents is:

`<Install_Directory>\CY8CKIT-062-BLE PSoC 6 BLE Pioneer Kit\<version>\Documentation`

Documents include:

- *CY8CKIT-062-BLE_Kit_Guide.pdf*
- *CY8CKIT-062-BLE_Quick_Start_Guide.pdf*
- *CY8CKIT-062-BLE_Release_Notes.pdf*

After opening PSoC Creator, on the Start Page, select **Start > Kits > CY8CKIT-062-BLE** for links to the kit documentation on the right panel. Expand **CY8CKIT-062-BLE** for kit code examples. General PSoC Creator documentation is available in **Help > Documentation**.

The default location for PSoC Creator documents is:

`<Install_Directory>\PSoC Creator\<version>\PSoC Creator\documentation`

The default location for PSoC Programmer documents is:

`<Install_Directory>\Programmer\Documents`

Technical Support

For assistance, go to www.cypress.com/support or contact our customer support at +1 (800) 541-4736 Ext. 3 (in the USA), or +1 (408) 943-2600 Ext. 3 (International).

Additional Information
