

## FEATURES

- **Sintered Bronze Material:** Offers superior wear resistance and longevity, reducing the need for frequent replacements.
- **1/2 in Length:** Suitable for applications requiring compact and efficient bearing solutions.
- **0.5 in Outside Diameter:** Ensures compatibility with a wide range of housings and assemblies.
- **0.31 in Shaft Diameter:** Designed to fit standard shaft sizes, ensuring ease of integration.
- **Self-Lubricating:** Minimises maintenance requirements, providing consistent performance over time.

## RS PRO 1/2 in Plain Bearing, Sintered Bronze

RS Stock No: 528-074

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

RS PRO offers a high-quality plain bearing designed for smooth rotational or linear movement in various mechanical applications. This plain bearing is crafted from sintered bronze, providing excellent durability and resistance to wear. It is ideal for use in environments where low maintenance and reliability are crucial.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.31 in

## Mechanical Specifications

Length	1/2 in
Material	Sintered Bronze
Outside Diameter	0.5 in
