

Features

- **Heavy-Duty 5mm Steel Construction** – Provides exceptional durability, resisting wear and impact
- **High-Visibility Yellow Coating** – Improves visibility for **drivers and pedestrians**, enhancing safety.
- **Protective Barrier** – Reduces collision risks, safeguarding vehicles and infrastructure.

RS PRO Pair of 2m Long Tapered Steel Wheel Guides x 600mm Width x 365mm Height

Vendor Partcode.: 0688162

RS PRO is our own brand range and brings you a wide range of high-quality, great value products offering you more choice. Trusted by engineers all over the world, every part of every RS PRO product has been rigorously tested against demanding industry standards; they're only given the RS PRO Seal of Approval if we're confident of their exceptional quality, which means you can be confident too.

The RS PRO Loading Bay Wheel Guides are engineered to enhance vehicle guidance and minimize collision risks, ensuring efficient loading and parking operations in commercial and industrial environments. Designed for Heavy Goods Vehicles (HGVs), these guides help drivers align their vehicles with precision, preventing misalignment that can lead to infrastructure damage or safety hazards.

Built from high-strength 5mm steel, these durable wheel guides withstand frequent use in high-traffic environments such as loading docks, warehouses, and distribution centers. Their bright yellow powder coating enhances visibility, ensuring easy recognition even in low-light conditions. The tapered design directs vehicles smoothly into position, reducing the risk of accidental damage.

Specifications

Material	Steel
Colour	Yellow
Length	2040mm
Width	405mm
Height	365mm
Wall thickness	5mm
Weight (Kg)	116

Approvals

Standards Met	REACH
