

## FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and durability for long-lasting performance
- **3/4 in Length:** Suitable for applications requiring compact and efficient design
- **0.62 in Outside Diameter:** Ensures compatibility with a range of housings and assemblies
- **0.37 in Shaft Diameter:** Designed to accommodate standard shaft sizes for easy integration

## RS PRO 3/4 in Plain Bearing, Sintered Bronze

RS Stock No: 528-095

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed for smooth and efficient operation in various mechanical applications. Made from sintered bronze, it offers excellent wear resistance and durability, making it ideal for reducing friction between moving parts. Its compact size and robust construction ensure reliable performance in demanding environments.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.37 in

## Mechanical Specifications

Length	3/4 in
Material	Sintered Bronze
Outside Diameter	0.62 in
