

## FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and self-lubricating properties
- **1 in Length:** Suitable for compact installations
- **1.37 in Outside Diameter:** Ensures a secure fit in housing
- **1.12 in Shaft Diameter:** Compatible with standard shaft sizes

## RS PRO 1 in Sintered Bronze Plain Bearing

RS Stock No: 558-532

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring low friction and high wear resistance. Ideal for use in machinery and equipment, it offers reliable performance and durability. The primary benefit of this bearing is its ability to operate efficiently under varying loads and speeds.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	1.12 in

## Mechanical Specifications

Length	1 in
Material	Sintered Bronze
Outside Diameter	1.37 in
