

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and longevity.
- **2-1/2 in Length:** Suitable for compact installations where space is limited.
- **2.88 in Outside Diameter:** Ensures compatibility with a wide range of housings.
- **Low-Friction Operation:** Enhances efficiency and reduces energy consumption.
- **Corrosion Resistance:** Suitable for use in challenging environments.

RS PRO 2-1/2 in Plain Bearing, Sintered Bronze

RS Stock No: 594-767

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring smooth, low-friction movement. Made from high-quality sintered bronze, it offers excellent durability and performance in various industrial settings. The bearing's compact size and robust construction make it ideal for supporting radial loads in machinery.
