

Make sustainable

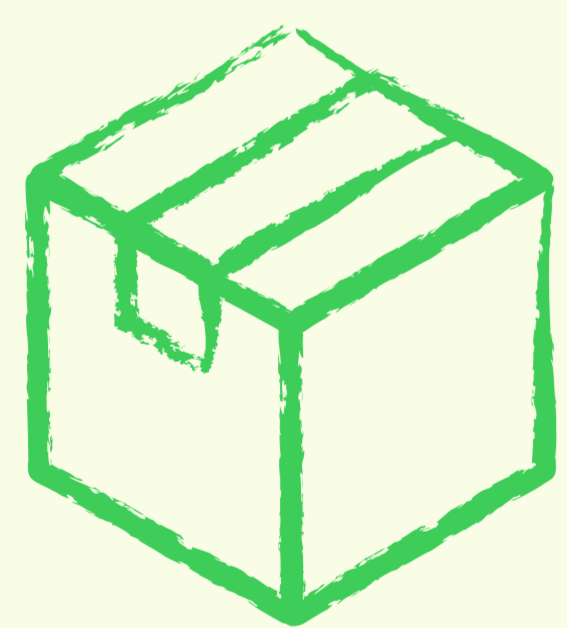

IMPACT

with PanelSeT PLM

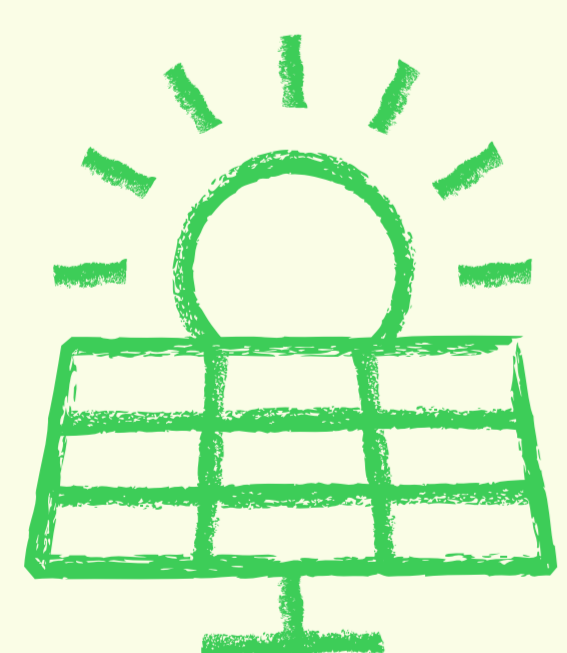

Thalassa PLM becomes PanelSeT PLM,
keeping same commercial references

PLM is now made of polyester with **37% of recycled material content!**

We also use **75% recycled cardboard** packaging

Our plant is now **Zero CO₂** emissions thanks to a microgrid and solar energy

Our visual identity evolves without affecting mechanism nor compatibilities

PanelSeT PLM protects your equipment in the most harsh environments, we have made no compromise on product characteristics and **its certifications remains the same!**

Store your documents with a new **digital document holder!**
