

## FEATURES

- **Sintered Bronze Material:** Provides high wear resistance and longevity, reducing maintenance needs.
- **55 mm Length:** Ensures stability and support for the shaft, enhancing operational efficiency.
- **51.09 mm Outside Diameter:** Offers compatibility with a range of housings, allowing for versatile use.
- **41.97 mm Shaft Diameter:** Ensures a precise fit, reducing vibration and noise during operation.

**RS PRO 55mm Sintered Bronze Plain Bearing, 51.09mm OD**

RS Stock No: 558-456

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed for reliable performance in various industrial applications. Made from sintered bronze, it offers excellent durability and resistance to wear, making it ideal for supporting rotating or sliding shafts. With a length of 55 mm and an outside diameter of 51.09 mm, this bearing is suitable for shafts with a diameter of 41.97 mm, ensuring a precise fit and smooth operation.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	41.97 mm

## Mechanical Specifications

Length	55 mm
Material	Sintered Bronze
Outside Diameter	51.09 mm
