DESCRIPTION

CURVED NOSE NOSE PLIERS INSULATED 1000 VOLT

OFFSET LONG-NOSE PLIERS, 1000V-INSULATED: NF EN IEC 60900 / FT BT 402

CHARACTERISTICS: Insulating tool = reduces as much as possible any risks of short-circuiting, none of the parts made of conducting material are accessible. Ceramic cutters (compressed to more than 200T giving them extreme hardness characteristics). Striated nose with "soft" profile to avoid damaging the cables. Two handle sizes available.

BENEFITS: Maximum safety with complete insulation, reducing the risks of short-circuiting. Increased durability thanks to the high-quality ceramic cutters. Cables preserved thanks to the striated nose with "soft" profile. Handle options offering greater flexibility and efficiency in use.

TYPICAL UTILISATION: Particularly well-suited to live low-voltage working in confined spaces where the risk of short-circuiting could have serious consequences for people and the installations. Twin-material handle ensuring a good grip and easy handling without any risk of damage to gloves. Arm profile enabling easy transmission of the force = controlled movement. Suspension system, ideal for working at a height. Utilisation ergonomics with insulation gloves. Composite material = lightweight.
