

FEATURES

- **Sintered Bronze Material:** Offers excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **40 mm Length:** Suitable for various machinery applications, providing stability and support.
- **32.06 mm Outside Diameter:** Ensures compatibility with a wide range of housings.
- **24.98 mm Shaft Diameter:** Designed for precise fit and optimal performance.

RS PRO Sintered Bronze Plain Bearing, 40 mm Length

RS Stock No: 558-410

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational movement. With a length of 40 mm, it is ideal for use in machinery where low maintenance and durability are essential. The sintered bronze material provides excellent wear resistance and self-lubricating properties, ensuring smooth operation over time.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	24.98 mm

Mechanical Specifications

Length	40 mm
Material	Sintered Bronze
Outside Diameter	32.06 mm
