

## #9 Blade - Retractable Blade

X209

The #9 Retractable Blade from X-ACTO is an excellent detail blade for making precise cuts through a range of lightweight materials. The fully retractable [blade](#) is thin enough to make the careful cuts you need but also sturdy enough not to snap under light pressure.

The #9 Retractable Blade from X-ACTO works with a large variety of medium and lightweight materials:

- Light cardboard
- Paper
- Film
- Cloth
- Plastic
- And more

X-ACTO blades are designed to allow you to make the careful and detailed cuts you need time and time again. Our blades are created with care and exceptional craftsmanship, producing a cutting edge that stays sharp. An X-ACTO quality blade is always ready when you need it.

The original X-ACTO knife has been praised for more than 50 years as the standard for precision. Attaining this level of precision, accuracy and reliability starts with supreme quality craftsmanship. X-ACTO knife blades are crafted with sharpened carbon steel for a reliable cut and a strong blade. X-ACTO knife blades fit with most X-ACTO knife models.
