

## FEATURES

- **Sintered Bronze Material:** Provides high wear resistance and longevity
- **30 mm Length:** Suitable for compact installations
- **38.06 mm Outside Diameter:** Ensures compatibility with standard housings
- **31.97 mm Shaft Diameter:** Designed for precise fitting and optimal performance

## RS PRO 30 mm Sintered Bronze Plain Bearing

RS Stock No: 518-207

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

## Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent durability and reduced friction, making it ideal for various industrial uses. Its primary benefit is the ability to support radial loads while ensuring smooth operation.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	31.97 mm

## Mechanical Specifications

Length	30 mm
Material	Sintered Bronze
Outside Diameter	38.06 mm
