

## SHOWA DURACOIL 577

Grâce à la technologie d'enveloppement DURACOil, ce gant très résistant aux coupures et à l'abrasion protège la main contre toute une série d'applications dangereuses. Le revêtement en nitrile est imperméable aux liquides pour une protection et un confort accrus, tandis que le revêtement en mousse de nitrile garantit une meilleure préhension en milieu humide et sec tout en restant respirant et souple. La structure ergonomique s'adapte à la forme de la main pour en réduire la fatigue et optimiser la précision.
