

## FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and durability.
- **40 mm Length:** Suitable for a wide range of shaft sizes, ensuring versatility.
- **50.06 mm Outside Diameter:** Ensures a precise fit for optimal performance.
- **39.97 mm Shaft Diameter:** Designed for compatibility with standard shaft sizes.

## RS PRO 40 mm Plain Bearing, Sintered Bronze

RS Stock No: 558-448

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed for smooth and efficient operation in various industrial applications. Made from high-quality sintered bronze, it offers excellent durability and performance. Ideal for use in machinery where low friction and high wear resistance are essential.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	39.97 mm

## Mechanical Specifications

Length	40 mm
Material	Sintered Bronze
Outside Diameter	50.06 mm
